Highway Patrol To Bear Down On All Who Break Laws

Motorists Must Observe New Regulations And Rules

Tallahassee, July 17.—Florida's expanded road patrol is expected to take to the road September 1 and there's the date set by State Safety director Gilliam. To begin enforcement of Florida's new state highway traffic regulations as provided by acts of the last legislature. Gilliam said the law is as near to the nation-wide standards for safe driving practices as it could be made.

It is liberal in its regulation of speeds, and for the most part, gives the driver plenty of discretion in careful operation of his automobile, but it sets up strict controls over proper mechanical equipment and observance of the traffic signs and rules.

Nearly 100 highway patrol recruits now in training at Lakeland are receiving detailed instruction on the traffic law as well as general police education. At the end of the training about 10 percent of the men will receive a special course in examination of drivers.

Briefly the 1941 law provides: Daytime speeds up to 60 miles an hour and night speed up to 50 miles an hour for automobiles "where no special hazards exist on state highways" and 25 miles an hour in business and residential sections. Vehicles which weigh more than 800 pounds may drive 50 miles an hour in the daytime and 45 miles an hour at night.

There is no actual limit, but speeds in excess of these are prima facie evidence of careless and reckless driving.

Day begins at one half hour before sunrise and ends one half hour after sunset, for purposes of the law.

Automobiles shall not be driven at such speeds as to impede or block normal and reasonable movement of traffic.

The generally recognized hand signals must be given at all times and continuously for 100 feet before a driver slows down or makes a turn.

No U-turns may be made on open highways except where there

is 500 feet of visibility in each direction.

Automobiles must keep a safe distance behind cars they are following and trucks must stay 100 feet apart outside business or residential districts, except when overtaking or passing each other.

At intersections, the right of way must be given to the car on the right.

Headlights are required and must show the road for a distance of 300 feet. They must have dimmers which must be used when oncoming car is within 500 feet. Headlights should be used day or night when the visibility is not as clear as the distance of 300 feet. All cars must have red tail lights that are visible for a distance of 500 feet. Trucks must be equipped with clearance lights on the front and rear reflectors on each side of the rear.

Every vehicle must have adequate brakes, rear view mirrors and workable windshield wipers.

State road patrolmen thoroughly familiar with the law will be charged with the responsibility of seeing that all cars operating on the highways are operated in strict accordance with the law and they are prepared to test lights, brakes and so on to determine mechanical fitness.

Child Labor Law Will Be Enforced On All Jook Joints

Must Be 21 To Work Where Beer & Liquor Are Sold

Proprietors of jook joints, beer parlors and similar places were warned yesterday by State Labor Inspector V. H. Hutchinson, that if, of strict enforcement of a child labor law enacted by the 1941 legislature.

The law prohibits any person under 21 years of age from working in, about, or in connection with any pool room, billiard room, brewery, saloon, barroom, or any place where intoxicating liquors are manufactured, or sold.

It applies, said Hutchinson, to any place where wine, beer or other beverages containing more than 2.5 percent alcohol are sold.

The maximum penalty for violation is a \$500 fine and imprisonment for six months.

All employers of minors under 18 years of age, under the law, are required to keep a time record of such employment. No minor under 16 can be employed for more than six consecutive days in any one week, more than 40 hours in any one week or more than eight hours in any one day. No minor under 16 can be employed before 6:30 a. m. or after 6 p. m. Minors between 16 and 18 cannot be employed before 6 a. m. or after 10 p. m. On school days the hours of work of children under 16, when combined with school hours, cannot exceed a total of eight hours.

The law sets up sanitary regulations at places where persons under 18 are employed. It also prohibits employment of persons under 18 on any scaffolding in heavy work in building trades, in the operation of a motor vehicle as driver or helper, in operating belts or hoisting apparatus, wood working machinery, metal grinding machines, mixing machines in bakeries, punch, presses, stamping machines, power driven laundry or dry cleaning machinery, and paint sprayers, or in the manufacture of paints, colors, white lead, dangerous or poisonous dyes, or in preparing compositions in which dangerous leads or acids are used.

Enforcement of the law is placed in the hands of labor inspectors, sheriffs and city police. The inspectors are given the right at any time to enter any place covered by the act.

Hutchinson said he intended to enforce the law strictly, but was giving employers affected a chance to comply before starting arrests.

DAVIS APPOINTED

Tallahassee, July 17.—J. Edwin Larson, State Treasurer and Insurance Commissioner, announced today the appointment of Robert W. Davis, of Gainesville, to the position of Chief Clerk in the office of the Insurance Commissioner.

Mr. Davis is the veteran Secretary of the Senate, having served in this capacity since the 1929 session and as Assistant Bill Secretary in the 1937 session. He was a practicing attorney until 1923, when he accepted the position of State Comptroller Officer with the C. W. A. and continued the same work with the W. F. A. until 1937, when he was appointed Director of the Workmen's Compensation Division of the State Industrial Commission. Mr. Davis has had a wide experience in the field of workmen's compensation insurance and Mr. Larson stated that his appointment is in line with the policy adopted by the State Treasurer and Insurance Commissioner to secure the best qualified persons obtainable to serve the citizens of Florida through his office.

Venice Selected As Camp Site

Washington, July 17.—Senator Claude Pepper of Florida announced Wednesday that the war department has selected Venice, Florida, as the site for a new army camp.

Senator Pepper stated that funds have not yet been made available for acquisition of the site or for construction of this camp, but that the quartermaster department is expected to make plans for an immediate occupation, in the event that the army is expanded.

Army officials had recently told congress that 23 new camps would be necessary if a 2,500,000-man army is authorized.

DAYLIGHT SAVING

Washington, July 17.—In a surprise move that may alter the living habits of millions of Americans, President Roosevelt asked congress Tuesday for authority to order a far-flung extension of daylight saving time.

Under the plan, which is designed to conserve electricity for defense production, he could order clocks throughout the country, or in any part of the country, to be turned as much as two hours forward for the whole year or any part of the year. However, because the power situation varies in different localities, it was indicated that no blanket advance for the whole country was actually planned.

Instead, Mr. Roosevelt asked that he be empowered to issue executive orders fixing new time standards in some areas and leaving others unchanged, according to what measures "the deems necessary to conserve electrical energy or otherwise promote national defenses."

ENGRAM NAMED

West Palm Beach, Fla., July 17.—Members of the Lake Worth Pioneer Association, in their annual election session at the recreational room of the Congregational Church, chose A. L. Engram as president.

SEEK PWA FUNDS

West Palm Beach, Fla., July 17.—Formal application for PWA funds to build an eight-room elementary school and cafeteria in the Military Trail section was filed by the school board Monday.

Between \$55,000 and \$60,000 is sought in the appeal. Crowded conditions caused by influx of children of military personnel at Morrison Field is given as the reason for the need of the additional school.

At a meeting here Saturday, Warner G. Young, PWA project engineer, announced that \$150,000,000 in PWA funds have been earmarked for improvements in defense areas.

Florida Briefs

The bridge on state road number 500 across the Chipola river near Clarksville has been designated by the State Road department as the Marion B. McClellan Bridge in honor of the memory of the late Marion B. McClellan, a pioneer settler and outstanding citizen of Calhoun county.

MacDill Field headquarters of the Third Bombardment Wing is soon to have two more giant steel and concrete hangars, giving it five in all to keep pace with its growth as a permanent Army Air Corps Base.

Liberal rainfall which broke Florida's extended drought came too late to offset damage to citrus and lower than normal yields are anticipated by the Federal Agricultural Marketing Service.

Twenty-nine Florida cities have exceeded their quotas for funds in the statewide United Service Organizations drive, officials announced this week.

The Third Interceptor Command of the Army Air Corps asks that the Florida Defense Council complete mobilization of watchers at more than 800 strategically located

observation posts by the end of this week. The watchers will be made up of civilian volunteers.

A second aviation training school will be established at Dow Field near Arcadia by the Florida Aeronautical Institute which now operates the school at Carlton Field. Both American and British cadets will be trained officials said.

George Ekert Hoffman, Pensacola attorney, has been appointed United States attorney for the northern district of Florida, it was announced from Washington this week.

The ACL's crack Streamline operating between Miami and New York was derailed near Walthamville, Ga., after striking a cow. Two engines and eight cars of the "Champion" overturned. Two persons were seriously hurt and a number received minor injuries.

Dairy cattle will be valued at not less than \$50 a head and range cattle at a minimum of \$20 a head in Palm Beach county tax officials announced this week. An effort will be made to see that all cattle both range and dairy herds are placed on the tax roll.

J. Edwin Larson, State Treasurer and Insurance commissioner, announced this week the appointment of Robert W. Davis of Gainesville, to the position of Chief Clerk in the office of Insurance Commissioner.

The publication of "Florida Highways" official organ of the State Road department was resumed this month after a lapse of several years. J. E. Robinson of Winter Garden is publisher. F. P. Baddow of Jacksonville formerly with the Jacksonville Journal is advertising representative.

Tolle Child Is Christened

Fort Pierce, Fla., July 17.—Sunday marked another milestone in the eventful life of little Miss Catherine Ann Tolle, who first gained public attention when she was found abandoned in the vestibule of Hendry Memorial Methodist Church here Easter Monday morning when but three days old. The young lady was christened Sunday in the church where she was found and the officiating minister was Rev. Joe A. Tolle, into whose family she has been adopted. She seemed quite proud of the attention.

Catherine Ann spent several weeks in a baby incubator at Fort Pierce Memorial hospital and has already hit the social spotlight several times with parties and shows.

According to the Department of Agriculture there were 10,616,000 horses and colts, 68,769,000 cattle and calves, 34,470,000 sheep and lambs and 58,312,000 pigs and hogs on the farms of the United States on January 1, 1940.

PERSONALS

Mrs. Thomas Elliott and infant son, Larry Benson, have returned to their home in Pahokee from St. Mary's Hospital in West Palm Beach.

Mrs. G. V. Hudson and Miss Carolyn Jane Hudson of Canal Point, left Wednesday to visit relatives in Augusta, West Virginia.

Mrs. D. A. Campbell and Mrs. J. W. Williams, Jr., have gone to Quincy, Fla., to visit the former's parents Mr. and B. M. Elder.

Mr. and Mrs. George O. Schroder and daughter, Carol, who have been visiting Mr. Schroder's brother, Mr. R. J. Schroder of the family of Pahokee, have returned to their home in Philadelphia.

Mr. and Mrs. Duval Smith and J. V. Fourny spent the past weekend in Hialeah attending the fifth district meeting of the American Legion.

Mrs. E. B. Ransom and son, Billy, accompanied by her mother, Mrs. E. B. Ransom and Miss Imogene Huff are visiting relatives and friends in Alachua.

Mrs. J. B. Elliott and grandson, Charles Dickson, are visiting Mr. and Mrs. Z. A. Geiger of Pahokee who have returned to their home after visiting in California.

Mr. and Mrs. John M. Gleith and her mother, Mrs. Olive Bartholomew left this week to join Mr. Gleith in St. Cloud where he is managing editor of the St. Cloud Tribune.

Officers and employees of The City Ice & Fuel Company enjoyed a barbecue in Pahokee Wednesday. The menu consisted of roast steaks, spare ribs and swamp cabbage. This is the third outing of the personnel and their families since the plant was taken over by City Ice & Fuel.

SEEKS HARMONY

New York, July 17.—Wendell L. Willkie said Tuesday night that "we must gear ourselves to a high level of production, and the first step toward accomplishing this is a voluntary, harmonious adjustment of our industrial relations."

The total vote cast for all candidates for President in 1928 was 26,579,414. In 1940 the total was 49,708,211—a gain of 23,128,797 in the intervening period.

Millage Must Be Lowered When New Tax Is Assessed

Comptroller Lee Points Out Excerpts From New Tax Law

Tallahassee, July 17.—Bringing renewed assurances that millage rates must come down under the new status in proportion to the increase in valuation, State Comptroller J. M. Lee told a radio audience Tuesday that property has been carrying its fair share of the tax load "will not suffer from any unfair tax burden because of the new tax laws," and he added, "Those who make their returns will be allowed to suffer from a load that should be carried proportionately by those who do not make returns on time either."

"There are ways to find property that is escaping taxation, and I am going to help find it. I refuse to be the tool through which we increase the burden of those

who conscientiously and with faith in good government file their returns, while others who make no return or incomplete returns have their burden diminished by the new law."

"I sat through a railroad assessment board hearing, Thursday and heard dubious taxpayers assert 'It can't be done' and I take issue with that attitude. I affirm here and now—it can be done, and I promise you it will be done."

And as he accomplished the purpose of these new tax laws, or activity will mean reductions for those who are now paying too much in much property, not bringing in much property, not paying now. We are going to find it and put it on the roll for taxation and then we are going to collect.

"Don't fool yourself," he added. "Don't get the idea we'll lie down and let many escape."

The Comptroller opened his talk pointing to the necessity for preparedness, adding that "total preparedness means everybody has to do it or it is going to be required of a good citizen."

He pointed to Florida's problems "courageously met by the Legislature which corrected the wrongs suffered by those who have been paying taxes all the years of our

tax nightmare."

"Our Governor has shown the courage to demand full, complete and fair administration of these new laws which have eliminated mixed taxation. They provide that you levy your own taxes and spend your own money in your own home government. When you do your duty you help your self."

"There'll be no failure if we set our minds to the task, and there'll be no increase on those carrying their fair share of the load. These laws require that millage go down ratably as the assessment goes up. This provision will be as strictly and rigidly enforced as the requirement for full cash value assessments. This will reduce the 'take' on those who have been paying."

TO SELECT MEN
 Washington, July 17.—An armored truck, manned by secret service agents and conveyed by a machine gun-mounted trailer, rumbled up to the treasury building Tuesday and deposited an incognito-looking cardboard box containing the list of 750,000 American young men.

In the box were 800 fireproof, leakproof capsules that look like lipstick holders. Each contains a small slip of paper bearing a number from 1 to 800.

A few minutes before 7 p. m., Eastern Standard time, Thursday, the capsules will be poured into a goldfish bowl and the nation's second peacetime draft lottery will be under way.

WEATHER
